

Summer Camp is offered for
Children age 3-12

Summer Camp Goals

A gentle introduction to the Montessori philosophy and learning style for new students. Or a gentle continuation for current Montessori students.

The theme based camps focus on building education skills in summer.

In primary, the focus on literacy skills fosters an enjoyment of reading. In elementary, focused exploration of specific topics is offered.

This is accomplished through a relaxed academic environment where students explore topics in depth using reading, research and multi media with submersion in practical life skills such as cooking and food preparation, art and multi media approaches.

All of these form a hands-on approach to learning.

Maria Montessori was an Italian physician, educator, and innovator, acclaimed for her educational method that builds on the way children naturally learn.
